To Whom it May Concern:

I have known Randy Swetnam for almost three years as a student, friend and community businessman in Belton Missouri.

Randy Swetnam is an honest and trustworthy person in both his private and business life. He has impeccable character and is a leader in the community in a number of social and religious venues as well. I highly recommend Randy Swetnam to any organization, and am fully confident that his affiliation and presence alone will surely elevate the level of professionalism and excellence in every situation.

Respectfully,
