To Whom It May Concern:

I have known Mr. Randall Swetnam for approximately 20 years, having first met him when he was a Pharmaceutical Representative. Since then we have had other business relationships covering a number of different industries.

Randy is an absolute first class gentleman. I hold him in very high regard and have always found him to be honest, forthright, and a man of high integrity and character. I am proud to call Randy my friend and happy to be a character reference in his regards.

Please feel free to contact me if you have any questions or would like more information.

Sincerely,

**John Schafer, RPh**
